# Bandag BDR-HG

## Drive Winter - Regional

Deep traction and consistent braking even in winter conditions.

Superb mileage performance thanks to its tread and slow-wearing compound.

The safe, reliable choice incorporating the latest winter traction technology.

Optimised for mixed winter and dry conditions perfect for all-season, regional operations.

Representing the pinnacle of Bridgestone winter tyre technology, Bandag's premium range of winter retreads gives you the confidence to power through winter with total peace of mind. With patterns and compounds engineered to deliver safe, consistent and reliable performance.

Sub-zero temperatures and even wet and snow-covered roads... the Bandag Drive Regional High-Grip winter retread is built to take it all in its stride. Extending both the lifetime of your valuable tyres and the profitability of your business, right throughout the whole year.

The Bandag BDR-HG's high-grip pattern with deep, staggered tread blocks ensures safe and reliable performance combined with outstanding mileage potential. Its deep tread grooves provide extra grip, even in winter conditions and even as your tyres approach the end of their life cycle.

The Bandag BDR-HG is the ideal retread to extend the life of your premium Bridgestone winter regional tyres.

Total Tyre Life is built around Bridgestone's premium new tyres and Bandag retreads, the best match to extend tyre life and reduce cost per km.
